

## SmokeDam

- Clear glass smoke baffle
- Fast delivery
- Unlimited length
- Ideal for smoke channelling in conjunction with natural ventilation or mechanical smoke exhaust
- Easily retrofit

SmokeDam is a clear glass smoke baffle system incorporating proprietary brackets and supports.

Various performance levels are available including BCA compliant toughened glass systems, laminated glazing and fire/smoke resistant glazing systems which exceed the Building Code Requirements and achieve 600°C for 30 minutes.

The system is ideal for smoke channelling when used in combination with natural ventilation or mechanical smoke exhaust systems. SmokeDam can be supplied and installed in an unlimited length and is easily retrofit in existing buildings.
